

# The role of oil and gas in **A TRANSITIONING WORLD**

The world needs to transition to a lower carbon emission future

The Oil and Gas industry can leverage on

**HUMAN CAPITAL**

**EXPERIENCE**

**KNOWLEDGE**

Our industry efforts

1

Reducing greenhouse gas emissions

2

Supplying cleaner energy

3

Developing low-carbon technologies

Continuing to supply affordable and reliable energy to a growing global population

The role of oil and gas is part of the solution for a lower emission future
