The Mexico Regional Forum was originated with the intention of spreading IOGP’s knowledge and best practices in safety, environment and standards to Mexican and regional private and public stakeholders, as well as the oil companies interested in making risk investments in Mexico.

We are extremely grateful to speakers and all of those who attended the meeting. After the successes of the event we hope to continue an extensive and rewarding relationship between the two organisations.

Please enjoy this slide pack.
PANEL DISCUSSION:
Safeguarding our licence to operate

16:30

CHAIR
Monika Hausenblas
Chair
IOGP

PANEL
Helge Hove Haldorsen
General Director
Statoil Mexico

Olaf Martins
Global Engagement Manager
IOGP

Carlos de Regules
Executive Director
ASEA

Luis Fernando Betancourt Sánchez
EHS Corporate Deputy Director
Pemex
Panel Discussion Summary

The discussion on the industry’s social licence to operate focussed on:

a) Energy Demand
Oil & Gas will continue to remain the most important energy sources through to 2040, with a combined share of 44% of primary energy even in the IEA\(^1\) two degree scenario

b) Operational Excellence
Operational excellence and industry best practices are critical to maintain public trust

c) Climate Debate
Oil & Gas producers are seen as part of the solution to the climate challenge, with strong efforts in energy efficiency, natural gas production and CCS\(^2\)

\(^1\) International Energy Agency
\(^2\) Carbon Capture & Storage
PANEL DISCUSSION: Photos
The Mexico Regional Forum took place in Mexico City on the 25 May 2016, jointly hosted by The International Association of Oil and Gas Producers (IOGP) and La Asociación Mexicana de Empresas de Hidrocarburos (AMEXHI). For more information on the event or any future events please contact:
